If the executed price is worse than the price requested by the Client, this is referred to as negative slippage. Please be advised that Slippage is a normal element when trading in financial instruments. Slippage more often occurs during periods of illiquidity or higher volatility (for example due to news announcements, economic events and market openings and other factors) making an Order at a specific price impossible to execute. your Orders may not be executed at declared prices. Slippage may appear in all types of accounts we offer. It is noted that Slippage can occur also during Stop loss orders, Limit orders, and other types of Orders.
